💼 Role Breakdown 1: Thoughtworks • Business Analysis Intern

Thoughtworks • Business Analysis Intern

Greenhouse Job ID: 8305712 • Duration: 6 Months Full-Time

Greenhouse ATS Track

ELIGIBLE BATCHES
2024, 2025, 2026 (B.Tech, B.E, MCA, MBA Tech)

STIPEND & PPO
₹35,000 – ₹50,000 / month (PPO: ₹12 – ₹16 LPA)

CORE SKILLS
Agile/Scrum, User Stories, SQL, Jira, Data Flow Diagrams

WORK MODEL
Bangalore (Hybrid: 2–3 days office in Bagmane Tech Park)

Key Responsibilities:

- Facilitate discovery workshops with product owners and clients to elicit functional and non-functional software requirements.
- Decompose epics into fine-grained user stories with verifiable acceptance criteria for engineering squads.
- Analyze domain workflows and data interchange points between relational databases and microservices.

🔥 **Skill Circuit Greenhouse ATS Hack:** Thoughtworks evaluates behavioral empathy and requirement scoping rather than syntactic programming. In your resume, quantify features by business outcomes (e.g. *"Mapped checkout data flow, reducing developer edge-case ambiguity by 40%"*).

🚀 Role Breakdown 2: AtkinsRéalis • Data Science Intern

AtkinsRéalis Global • Data Science Intern

Workday Req ID: R-165210 • Engineering & Infrastructure Analytics

Workday ATS Track

TARGET BACKGROUND **B.Tech / M.Tech in CS, IT, AI/ML, Data Science, Math/Stats**	MONTHLY STIPEND **₹30,000 – ₹45,000 / month + Corporate Perks**
TECHNICAL STACK **Python, Pandas, Scikit-Learn, SQL, Power BI / Tableau, Git**	LOCATION & OFFICE **Bellandur Corporate Office, Outer Ring Road, Bangalore**

Key Responsibilities:

- Perform Exploratory Data Analysis (EDA) on high-dimensional infrastructure sensor records and GIS datasets.
- Develop, tune, and cross-validate Machine Learning algorithms (Random Forest, XGBoost, Regression) for predictive maintenance.
- Build live BI dashboards in Power BI/Tableau for C-suite infrastructure project tracking.

🔥 **Skill Circuit Workday ATS Hack:** Place a clear single-column "Skills Matrix" at the top of your resume with literal terms: `Machine Learning`, `Exploratory Data Analysis`, `SQL Query Optimization`, and `Pandas Data Wrangling`. Include a clickable link to a deployed Streamlit app!

💻 Role Breakdown 3: PwC • IB Data / IB Processes Senior Associate

PwC AC • Deals Advisory (Investment Banking Data)

Workday Req ID: 768213WD • High-Growth Advisory Track

Big 4 Career Track

TARGET CANDIDATE **B.Tech, B.Com, M.Sc, MBA (Strong analytical & SQL/Financial skills)**	PACKAGE **₹10.0 – ₹18.0 LPA + Performance Bonus**
CORE STACK **Advanced SQL, Power Query, Financial Reconciliation, ETL**	OFFICE CAMPUS **RMZ Ecoworld, Campus 8, Bellandur, Bangalore**

Key Responsibilities:

- Execute data audit and financial transaction reconciliation workflows for institutional M&A and PE clients.
- Write complex SQL queries (Window functions, CTEs, Multi-table joins) to detect ledger discrepancies across millions of rows.
- Construct automated financial reporting templates in Excel Power Query and Python scripts to eliminate manual variance.

🔥 **Skill Circuit PwC Hack:** PwC Deals AC evaluates precision in data governance. Be prepared to explain: *"How do you trace data lineage from raw trade capture to ledger settlement?"* and demonstrate mastery of `DENSE_RANK()`, `LEAD/LAG`, and `COALESCE`.

🤝 2-Minute LinkedIn Employee Referral Message Scripts

Do NOT message recruiters first. Message a working Software Engineer, BA, or Senior Associate on LinkedIn with this high-converting format:

Template 1: For Thoughtworks (Business Analysis Intern)

```
Subject: Quick note regarding BA Intern opening (Req ID: 8305712) at Thoughtworks

Hi [Name],
I came across your inspiring work in product consulting at Thoughtworks Bangalore.

I noticed the Business Analysis Intern opening (Job ID: 8305712) and my background in agile story mapping,
requirements modeling, and SQL aligns 95% with what the squad is building. I have built 2 end-to-end case
studies documenting user stories and system flows.

I've attached my 1-page ATS-proof resume here: [Link to Google Drive / Overleaf]. Would you be open to
forwarding my resume for an internal employee referral? Either way, keep up the fantastic work!

Warm regards,
[Your Name] | [Your Phone] | [Your LinkedIn URL]
```

Template 2: For PwC Deals AC / AtkinsRéalis (Data Science & Processes)

```
Subject: Referral Request • [Role Title] (Req ID: [Job ID]) • [Your Name]

Hi [Name],
Hope you're having a productive week! I follow your updates on [Deals / Analytics] at [Company].

I am writing to express my strong interest in the [Role Title] position in Bangalore (Req ID: [Job ID]). My core
technical stack includes Advanced SQL, Python (Pandas/Scikit-Learn), and automated ETL reconciliation. You can
review my live deployed dashboard and project portfolio here: [Portfolio / GitHub URL].

I understand referrals require your confidence, so I have made sure my resume matches 100% of the portal
criteria. Would you feel comfortable submitting my resume via the internal referral portal?

Thank you for your time and guidance,
[Your Name] | [Your Contact]
```

🧐 Top 3 Must-Know Technical Interview Questions

1. Thoughtworks BA Round: "How do you handle an ambiguous requirement from an executive client?"

Ideal Answer Strategy:

Describe the *5-Whys framework*. Explain how you interview end-users to discover the underlying business pain point, map the 'As-Is' vs 'To-Be' workflow, and define measurable Acceptance Criteria in Gherkin (Given-When-Then) format.

2. AtkinsRéalis Data Science Round: "How do you mitigate data leakage in feature engineering?"

Ideal Answer Strategy:

Emphasize computing all transformations (mean imputation, scalers, target encodings) strictly *inside* the K-fold cross-validation loop on the training fold, never on the overall dataset before splitting.

3. PwC Deals Data Round: "Write a query to identify transaction records that occurred on weekends or duplicate invoices."

Ideal Answer Strategy:

Demonstrate `DATEPART(dw, transaction_date) IN (1, 7)` and `ROW_NUMBER() OVER(PARTITION BY vendor_id, invoice_amount ORDER BY transaction_date) > 1`.
