ROLE TITLE	REQ ID	STIPEND & PERKS	LOCATION	DIRECT APPLICATION
Data Science Intern	3170257	€1,000 – €1,500/mo PPO Track	Barcelona (Hybrid)	APPLY ON WORKDAY →
Software Engineering Intern	UNI4787	€1,000 – €1,500/mo Global Squad	Barcelona (Hybrid)	APPLY ON WORKDAY →
Data Analytics & Automation	UNI4151-1	€1,000 – €1,500/mo Process Ops	Barcelona (Hybrid)	APPLY ON WORKDAY →
Business Analyst – Online CX	UNI3962	€1,000 – €1,500/mo Marketplace Track	Barcelona (Hybrid)	APPLY ON WORKDAY →
Data Quality Intern	UNI4614-1	€1,000 – €1,500/mo Governance Track	Barcelona (Hybrid)	APPLY ON WORKDAY →

🚀 Deep Dive 1: HP Data Science Intern (Req ID: 3170257)

HP 3D Printing & Large Format • Data Science Intern

Workday Req ID: 3170257 • HP EMEA Innovation Hub

HP Workday Track

ELIGIBILITY
B.Tech / M.Tech in CS, Data Science, AI/ML, Math/Stats (2024–2026)

STIPEND & PERKS
€1,000 – €1,500 / month + Subsidized Cafeteria & Sports Complex

CORE STACK
Python (Pandas, Scikit-Learn), SQL, TensorFlow/PyTorch, Power BI

WORK MODE
Sant Cugat del Vallès, Barcelona, Spain • Hybrid

Key Responsibilities:

- Build predictive models analyzing real-time IoT sensor telemetry from global 3D printers.
- Implement feature engineering pipelines in Python and query enterprise Snowflake/SQL databases.

🔥 **HP Workday ATS Keyword Stems:** Embed `Machine Learning Telemetry`, `Feature Extraction`, and `Statistical Modeling` directly in your top single-column skills summary.

💻 Deep Dive 2: HP Software Engineering Intern (Req ID: UNI4787)

HP Cloud & Embedded Firmware • Software Intern

Workday Req ID: UNI4787 • Distributed Systems Squad

Software Track

REQUIRED STACK	KEY FOCUS
C++, Python, Java, Docker, Git, CI/CD, Linux Systems	Microservices, Device APIs, Unit Testing, Cloud Backends

🔥 **Interview Focus:** Object-oriented design, multithreaded synchronization, and containerization with Docker.

⚡ Deep Dive 3: HP Data Analytics & Automation (Req ID: UNI4151-1)

HP Process Analytics & RPA Automation Intern

Workday Req ID: UNI4151-1 • EMEA Operations

Automation Track

REQUIRED STACK	KEY FOCUS
Python Scripts, SQL Queries, Power BI, Power Automate, Excel	Automating ERP ingestion pipelines and creating executive dashboards

🔥 **Interview Focus:** Be ready to present a workflow automation script you authored that cut manual reporting hours.

📈 Deep Dive 4 & 5: Business Analyst & Data Quality Interns

HP Online CX (UNI3962) • HP Data Quality (UNI4614-1)

Workday Req IDs: UNI3962 / UNI4614-1 • EMEA Marketplaces

Business & Quality

BA CX FOCUS	DATA QUALITY FOCUS
Amazon/HP marketplace funnel optimization, A/B testing, CRO	Data governance, SQL validation rules, catalog audit pipelines

🔥 **Interview Focus:** Customer journey mapping, SQL joins for anomaly detection, and stakeholder communication.

🤝 2-Minute LinkedIn Employee Referral Message Scripts

Message a current HP Data Scientist, Software Engineer, or Manager in Barcelona on LinkedIn:

Template 1: For HP Data Science / Automation / Quality Roles

```
Subject: Referral Request • [Role Title] (Req ID: [Job ID]) • [Your Name]

Hi [Name],
Hope you're having a productive week! I follow your team's work in innovation at HP's Sant Cugat Hub.

I am writing to express my strong interest in the [Role Title] opening (Req ID: [Job ID]). My
technical background covers Python (Pandas/Scikit-Learn), Advanced SQL, and automated data pipelines.
I've built 2 production-grade projects demonstrating real-time data modeling.

You can inspect my portfolio & live app demo here: [Portfolio / GitHub Link].

I understand referrals require your confidence, so I've ensured my 1-page resume matches 100% of HP's
criteria. Would you feel comfortable submitting my resume through HP's internal referral portal?

Thank you for your guidance,
[Your Name] | [Your Contact]
```

Template 2: For HP Software Engineering / Business Analyst Roles

```
Subject: Quick note regarding [Role Title] (Req ID: [Job ID]) at HP

Hi [Name],
I came across your profile and was excited to see your engineering leadership at HP Barcelona.

I recently noticed the [Role Title] position (Req ID: [Job ID]). My experience building modular
C++/Python APIs and automated data workflows aligns directly with your squad's tech stack.

My 1-page ATS-optimized resume is available here: [Link to Resume]. Would you be open to putting in a
word or forwarding my profile internally? Either way, keep inspiring!

Best regards,
[Your Name] | [Your LinkedIn URL]
```

🤔 Top 3 Technical Interview Questions Asked at HP

1. HP Data Science: "How do you handle severe class imbalance in sensor anomaly prediction?"

Ideal Answer:

Combine SMOTE oversampling on training folds with cost-sensitive XGBoost objective functions and evaluate using PR-AUC rather than misleading accuracy.

2. HP Software: "Explain how smart pointers in modern C++ (unique_ptr vs shared_ptr) prevent memory leaks."

Ideal Answer:

Discuss RAII principles, reference counting overhead in `shared_ptr`, and why `unique_ptr` is zero-cost and preferred for clear object ownership.

3. HP Analytics: "Write a SQL query to identify customers who abandoned their cart at the payment stage."

Ideal Answer:

Use a `LEFT JOIN` between `checkout_events` and `payment_completed_events` with a `WHERE payment_id IS NULL`
